

### OVERARCHING STATEMENT

The Permira group includes a private equity business and a debt management business. In the UK, Permira Advisers LLP and Permira Advisers (London) Limited are part of the private equity business, advising the Permira funds, and Permira Debt Managers Limited advises and manages debt funds and vehicles.

The Permira group is committed to acting as a responsible investor; the Permira group has been a signatory of the UN-supported Principles for Responsible Investment since 2011. Permira Advisers LLP, Permira Advisers (London) Limited and Permira Debt Managers Limited, (collectively “Permira”) all carry on a business in the UK. Reflecting its commitment to Environmental, Social, Governance (ESG) and responsible investment and its business values of partnership, creativity and integrity, the Permira Group does not accept modern slavery or human trafficking in its own operations or its supply chain.

This statement has been prepared pursuant to *Part 6, Section 54 of the UK Modern Slavery Act 2015*. It sets out the steps which have been taken for the financial year ending 31 December 2016 to prevent modern slavery and human trafficking in Permira’s operations and its supply chain and plans moving forward.

### OPERATIONS AND SUPPLY CHAIN

The Permira funds make long-term investments in businesses to transform their performance. Since 1985 Permira has advised private equity funds with total committed capital of approximately €31 billion and have made over 200 private equity investments in market-leading businesses. Permira Debt Managers Limited is a leading provider of alternative credit solutions and long-term debt capital to successful European businesses.

Permira’s direct supply chain (i.e. Tier I UK suppliers) is typical to companies in the financial sector and includes advisers, office supplies, maintenance, catering and contracted staff (e.g. cleaning, security). Supplier relationships at Permira are managed at a functional level (e.g. by office or department heads and managers).

### BUSINESS PRINCIPLES AND GUIDELINES

Permira is committed to mitigating and addressing the risk of modern slavery and human trafficking in its operations and its supply chain.

The Permira group has a robust set of business principles to guide the behavior of all our professionals and underpin the way we operate. Our business principles form a key part of our commitment to corporate responsibility and treatment of Permira’s employees and partners. The Permira group employee handbook sets out Permira’s policies for employees, covering, for example equal opportunity, anti-discrimination and harassment, grievance mechanisms and the whistleblowing process.

Permira has a policy which sets out its commitments to preventing modern slavery and human trafficking in its operations and supply chain and expectations on suppliers. Suppliers are expected to:

- Comply with both the letter and the spirit of applicable laws, regulations and contractual obligations, including those in relation to modern slavery, human trafficking and supply chain transparency
- Prohibit and/or take appropriate steps to prevent any form of modern slavery and human trafficking in their own operations or supply chains. These steps may vary by supplier but could include developing and applying company standards and policies, assessing the risk of modern slavery and human trafficking in their operations and supply chains and/or undertaking supplier audits
- Provide information, which Permira may at times request, on its approach to preventing modern slavery and human trafficking in their operations and supply chains
- Make Permira aware as soon as reasonably practicable, if modern slavery and/or human trafficking is identified in their operations or supply chains

## **SUPPLY CHAIN RISK ASSESSMENT AND DUE DILIGENCE**

Permira has undertaken the following practical steps to prevent modern slavery in its own operations and supply chain:

- Approved a policy setting out Permira's commitments to preventing modern slavery and human trafficking in its operations and supply chain
- Assessed the risk of Modern Slavery and Human Trafficking across Permira's Tier 1 UK supply chain, focusing on suppliers where Permira spent over €10k in the calendar year, applying risk ratings (High, Moderate, and Low), considering factors including geography, products/services supplied and profile of direct and lower tier suppliers
- Reviewed and started to engage with Tier 1 UK suppliers considered to be higher risk to understand actions taken to prevent modern slavery and human trafficking in their own operations and supply chains
- Provided internal briefings to senior management, group office managers and selected key personnel with responsibility for supplier contracts on the background to the UK Modern Slavery Act 2015 (the 'MSA') and associated implications.

Based on the work undertaken to date, Permira is not aware of any instances of modern slavery or human trafficking in its operations or its supply chain.

## PERMIRA FUNDS' PORTFOLIO COMPANIES

Some Permira fund portfolio companies fall within the threshold requirements for reporting under the MSA.

These companies do not fall under Permira's supply chain and it is the responsibility of each such portfolio company to comply with its obligations under the MSA. In 2016 we engaged with our investment professionals and relevant portfolio company management teams to highlight the MSA and potential obligations for Permira fund portfolio companies under the MSA. We are committed to continuing to engage with our investment professionals and portfolio company management teams during 2017. Compliance with the MSA and consideration of ESG issues in supply chains is also considered as part of the pre-acquisition due diligence process for new investments, in line with the Permira group's 'Environment Social Governance (ESG) Framework' and approach to responsible investment.

## TRAINING

Internal one-on-one and group briefings have been provided to senior management, relevant office managers and other key personnel on the background to the UK MSA and associated implications, including responsibilities for implementation.

## NEXT STEPS

During the course of 2017, Permira intend to:

- Review, update and roll out modern slavery act guidelines more broadly;
- Assess the risk of Modern Slavery and Human Trafficking for new UK Tier I suppliers in 2017 using the risk ranking process developed in 2016;
- Continue to engage with suppliers considered to be at higher risk;
- Take steps to extend our approach beyond suppliers to the UK operations (Permira Advisers (London) Limited and Permira Debt Managers Limited), incorporating other Permira group jurisdictions using a phased approach;
- Continue to raise awareness internally on the MSA and Permira's guidelines/approach, including providing briefings for key supplier relationship holders to the Permira group; and
- Continue to engage with Permira funds' portfolio companies and potential new investments on steps they have taken to comply with the MSA.

## OVERSIGHT AND IMPLEMENTATION RESPONSIBILITIES

Permira's approach to the MSA has also been developed with inputs from functional areas including ESG/responsible investment, risk and compliance, finance, office managers and support staff.

Responsibility for the annual review of this Statement has been designated by the Permira group to the Head of ESG.
